Welcome to ICMREST-2027

The **7th International Conference on Multidisciplinary Research in Education, Science and Technology (ICMREST-2027)** brings together a global community of educators, researchers and innovators to explore cutting-edge developments and interdisciplinary research. It offers a vibrant platform for insightful discussion, sharing pioneering research and building meaningful academic and professional connections.

Join us for thought-provoking sessions, collaborative dialogues and enriching presentations that aim to shape the future of learning, scientific exploration and technological advancement.

Purpose

To provide a dynamic and inclusive platform for researchers, educators and practitioners across education and science, facilitating the exchange of innovative research, advanced methodologies and impactful practices. By encouraging dialogue and interdisciplinary collaboration, the conference addresses contemporary challenges, explores emerging trends and spotlights strategies that drive progress.

Objective

To establish an influential platform for scholars to share and advance research across public health, science, education, engineering and technology. The conference fosters partnerships that address pressing academic and scientific challenges, and equips participants with practical knowledge for educational and research settings.

Why Should You Attend?

1. **Presentation Opportunities**
   Present your paper or proposal before a wider audience and gain exposure for your work.

2. **Learning Opportunities**
   Learn the latest trends and best practices through keynotes, technical sessions and workshops.

3. **Career Opportunities**
   Interact with delegates from leading institutions and organisations in education and research.

4. **Exposure to New Ideas**
   Encounter ideas and expertise you have never met before and broaden your field of view.

5. **Publication Opportunities**
   Explore publication routes in academic journals, including Scopus-indexed journals.
